RE: Certified wetland determination

Attached is the preliminary technical wetland determination for your land. As you can see, the field has been labeled as PC/NW. This means that the field is considered prior converted or non-wetland. PC/NW fields can be used as follows:

PC/NW: Drainage systems or other hydrologic manipulations may be maintained or improved, provided that the hydrology of any adjacent wetland (W, FW, FWP) is not adversely impacted.

The attached preliminary determination will become final 30 calendar days from the date of this notification unless you notify this office at the above address to request a field visit for reconsideration or mediation of the preliminary technical determination. This will be the only notification you will receive unless you contest the attached determination.

After the preliminary technical determination becomes final, if you believe that the determination is in error, you may appeal to the Farm Service Agency (FSA) county committee at the above address. If you do not appeal to the FSA county committee, no further consideration on the matter will be given.

This determination is valid for USDA program purposes. It may not be valid for Army Corps of Engineers jurisdiction under the Clean Water Act. You can contact Ms. Sue Apple (309-794-5376) at the Army Corps of Engineers to determine if you need to work with them for any Clean Water Act requirements.

Sincerely,
