Dear Mark,

On 3/28/12 I was in the field with your contractor to document the plugging of the newly installed tile. All new lines were exposed with a section removed and capped. A surface intake has been reinstalled to replace the original one that had been removed.

Please find the enclosed CPA-026 stating that the restoration is complete and the label on the wetland has been changed from CW-2011 of 6.0 acres to FW of 6.0 acres. Any future drainage activity within those acres of jurisdictional wetland are restricted. Should you desire additional drainage please contact me prior to drainage work.

Sincerely,

Gary L. Hillmer
District Conservationist
